Our story

Happy feet

In 2016 we started our sock subscription.

Every month, consumers received a colorful pair of socks in the mailbox. Until we received a question from a friendly company in 2020: "Can you also make socks with our logo on them?"

Happy customers

"No problem," we said very coolly.

After quite a few designs, feedback rounds and tests, our first company sock was there! This left us wanting more and we have increasingly adapted the process and our services to companies.

Happy us

Over the years we have had the opportunity to work with all kinds of customers. From the sole proprietorship that would like to give away a little extra to good customers to the multinational that wants to surprise its staff at Christmas.

And now?

In 2024 we have more than one million pairs of socks!

We are the specialist in the field of custom socks in the Netherlands & Belgium. We would like to design a beautiful pair together for staff or customers.

Our socks

One-size-fits-all

The most popular size is 38-46.
Of course we also have children's or baby sizes.
Individual sizes are also possible.

Highest quality

Our socks are made of 80% cotton or bamboo,
15% polyamide and 5% elastane.
This composition ensures the best fit and a
long lifespan.

In all shapes and sizes

In addition to our regular socks, we also make
sports, bamboo, work and cycling socks.

Is your sock not in the list above?
We can fix it, just send us a message.

Durable materials

We use organic cotton/bamboo.
This is grown, cultivated and processed in a
sustainable manner into a beautiful pair.

See first, then believe?

We would like to convince you of our
proven quality. Request a free trial pair and
judge for yourself.

Bamboo socks

for durable feet

Our bamboo socks are the most sustainable socks.

They are made from bamboo yarn, which is processed in an environmentally friendly way into a beautiful pair.

Bamboo is durable, but also very soft.

Please note: delivery times for bamboo socks are slightly longer.

Green socks?

OEKO-TEX Standard 100

Our materials used do not contain any harmful substances that could be bad for your health.

BSCI certificate

Our employees work under safe, sustainable, healthy conditions. This certificate was issued on location by the international institute Amfori.

Sustainable transport

With us you can choose a sustainable transport option. To encourage you, we offer a discount when you choose an environmentally friendly option.

GOTS certificate

Our production takes place in an environmentally friendly and socially responsible manner. For example, we use organic cotton.

Bamboo socks

Less water and electricity are used in the production of bamboo socks. In addition, bamboo grows faster than cotton. We set the price for bamboo socks equal to that of cotton socks.

Reducing plastic

Since the beginning of 2023, we have managed to reduce the use of plastic by 95%. Labels and gift boxes are made from recyclable cardboard.

One Tree Planted

Each order = one tree

In 2023 we gave all our customers a unique Christmas gift: a pair of Christmas socks and a (Christmas) tree in Brazil. Together with OneTreePlanted, we have planted a tree in the Amazon region for every order.

Why?

We are doing quite well in terms of our sustainability, but we like to go the extra mile. Together with OneTreePlanted, we looked at where planting new trees has the greatest impact; Brazil.

Improving the living environment

In addition, OneTreePlanted ensures that the rainforest is restored and biodiversity increases. The trees also improve the water and air quality in the area. Children in the region are taught about biodiversity and the conservation of the Amazon rainforest.

500+ trees planted

We can proudly say that we have now planted more than 500 trees. And the next row of trees is ready!

We have good experience with this company.
The socks were delivered on time and look great.

SV Marie Curie

I definitely recommend Sokkies!
The communication was great and I received a very quick response to my emails.

Sanquin

Collaboration with Sanquin ❤️

We are very proud that we have been collaborating with Sanquin since 2022. These beautiful socks are available for blood donors.

Claudia van der Pijl, communications at Sanquin, speaks:
"We received a sample from Sokkies that they had sent. This was the reason for us to turn to them for the socks."

Claudia: "The contact with Sokkies has been very pleasant. Mike is very precise and careful, very nice to work with." The socks are also popular: "The design turned out very nice. I personally find them very comfortable. They have been in our range for a week as a donor appreciation, so I expect there will be posts on social media soon."

A number of months have now passed and the socks are very popular, because the second batch of socks is also in production!

Claudia concludes: "An excellent collaboration with quick handling of questions and great help with designing the design. I would definitely recommend Sokkies!"

NS

Unique magnetic socks for the NS 🙌

Together with the NS we have created perhaps the most iconic socks ever. The question: "Can you make socks with magnetic arms in them, so that we can click them together?"

Great question, we honestly had no idea if we could do this. So let's try it. It started with making arms and then placing magnets in those arms.

Too fat, too thin, too weak. It took a while, but we are all the more proud of the end result.

As icing on the cake, we received a beautiful video from the NS. This video was central to their Christmas & Valentine's Day campaign.

Christmas socks for DHL 📦

The ladies and gentlemen of DHL deliver so many packages for Sokkies every year, it's time to deliver them a package yourself.

In our search for a unique gift for the Christmas package, DHL came to us. They wanted to print custom socks in the DHL corporate identity.

An ideal gift for internal use that has been received with great praise.

It could be a colorful intention in the style of DHL. Characteristic of this are the bright yellow and red letters of DHL. We have therefore created a design with yellow Christmas baubles clearly displaying the characteristic corporate identity. The gift packaging and accompanying Christmas message on the card are also completely in DHL style. A unique package!

DHL has chosen to deliver the socks packed, ready to distribute around the holidays.

Peter Kuijpers from DHL says:

"The socks turned out beautiful. Many photos of employees that they think are fantastic are circulated internally. Worth repeating!"

Sokkies

Boskalis

Socks that travel around the world for Boskalis 😊

A cheerful pair of socks in corporate style was sought for Boskalis employees. The question was whether we could also ship worldwide. No problem!

How does this work?

Boskalis had seen a design of socks on the internet that they would like to see copied. Very clear input that we combined with the corporate identity, from which a cheerful, colorful design emerged.

Once the socks design was approved, we designed the gift boxes, labels and cards. In the same line as the socks, so that it is one whole. The boxes and cards contain a message from Boskalis to their staff. Based on the corporate identity and wishes from Boskalis. Then pack everything, label it and send it worldwide with the PostNL network.

The socks were for the staff on the “Day of the Seafarer”. In total we have sent more than 1000 packages to no fewer than 32 countries(!). For the first time, Boskalis Sockies went to Mexico, South Africa, the Philippines, Argentina, Lithuania and Sri Lanka, among others.

FAQ

What is the minimum order quantity?

The minimum edition is 50 pairs per design, per size.

What is the delivery time?

Our regular delivery time is approx. 4 weeks.

An emergency is possible in approx. 2 weeks, please contact us.

Can I submit a design myself?

Of course! We have design templates in which you can express all your creativity.

How does the free trial design work?

We create a digital trial design based on your wishes for free. Would you like a physical trial pair? That's also possible, you can request a free, random sample or we can make a physical sample pair based on your design.

What sizes are possible?

The majority of our customers opt for the one-size, which are suitable for sizes 38 to 46. Separate size orders are also possible.

Consider: 17-20, 21-24, 25-28, 29-33, 34-37, 38-42, 43-46 and 47-50.

How are the socks packed?

The socks can be joined together with a label. Then we put 10 pairs in a plastic bag and put them in boxes for shipping.

What are the socks made of?

Almost all our socks are made from organic combed cotton/bamboo, polyamide and elastane. The composition ensures a pair that fits wonderfully.

Where are the socks made?

We have various manufacturers that we have been working with for years. These are located in China, Turkey, Portugal and Ukraine, among others.
